Primary Industry: Research

Machine learning, a branch of [artificial intelligence](#), is a scientific discipline concerned with the design and development of [algorithms](#) that take as input empirical data, such as that from [sensors](#) or [databases](#), and yield patterns or predictions thought to be features of the underlying mechanism that generated the data. A learner can take advantage of examples (data) to capture characteristics...

Machine Learning Professionals

Jure Leskovec

Assistant Professor at Stanford University
Ph.D. in Machine Learning, Machine Learning Department, School of Computer Science, Carnegie Mellon University,...

Evgeniy Gabrilovich

Senior Staff Research Scientist at Google
Senior Staff Research Scientist at Google. 50+ publications in top international venues, 20+ patents filed....

Monica Rogati

VP of Data at Jawbone
Excited to join Jawbone to inspire people to be healthier -- with a data twist. Pioneered data driven products...

Daphne Koller

co-founder at Coursera, Inc

Ron Brachman

Chief Scientist and Head, Yahoo! Labs at Yahoo!

Paul Viola

Chief Scientist at Highspot, Inc.
Manager, Architect, Developer, and Researcher that is equally comfortable with advanced machine learning, web...
